

Grade Forgiveness Procedure

To encourage students who were not successful when they first enrolled in college and who later return and perform successfully, Spokane Colleges developed a Grade Forgiveness Procedure. Spokane Colleges offers a one-time opportunity for currently enrolled students to petition for Grade Forgiveness for a particular quarter or quarters if they meet all of the following conditions:

- Be currently enrolled.
- Maintain a quarterly 2.0 or better GPA in each quarter of enrollment after returning.
- Enroll and earn a minimum of 24 graded credits after the term(s) requested for grade forgiveness.

Only whole quarters are forgiven. It is not an option to forgive individual courses within a quarter. All classes to which this procedure has been applied are designated on the student's transcript by an asterisk symbol (*) in the grade qualifier field and are further defined on the back of the official Spokane Colleges transcript.

The forgiven grades remain on the student's transcript but will not be calculated in the Spokane Colleges cumulative grade point average (GPA). Courses with forgiven grades cannot be used towards any degree or certificate requirement or as a course pre-requisite at Spokane Colleges.

Grade forgiveness may not be exercised to remove a grade awarded in a case of academic misconduct. Forgiven grades may not be reinstated later. Grade forgiveness does not supersede departmental requirements. Classes for which grades are forgiven are counted in the maximum number of times a student may enroll in a class.

If a student transfers to another college, the receiving institution will receive a Spokane Colleges transcript containing all courses taken. The receiving institution may or may not honor the forgiveness of grades. Each institution interprets transcripts, accepts credits and calculates the GPA according to its own policies.

Students receiving financial aid for any quarter will still be subject to regulations that require all attempted credits be counted toward completion of an initial degree. Students are advised to contact the Financial Aid Office for information on how this policy may affect their aid.

Students receiving Veterans Administration educational benefits are advised that the forgiveness of any grade must be reported to the VA and may result in the retroactive reduction of benefits for the quarter for which the forgiven grade was originally assigned. Students are advised to contact their college Veterans Affairs Office for further information on how this policy may affect their benefits.
