Verification

Your application was selected for review in a process called "Verification." In this process, the Financial Aid Office will compare information you provide with your FAFSA. The law requires each institution to collect and verify this information before awarding Federal aid. If there is a difference between your FAFSA and information on any of your verification documents, the college may ask for further information from you and/or make the correction electronically.

Complete this verification form and submit it to your financial aid administrator as soon as possible. The Financial Aid Office cannot process your application without this information.

Important Note: The instructions below apply to the student and student's spouse (if student is married). Notify the financial aid office if the student and spouse filed separate IRS income tax returns for 2024 or had a change in marital status after December 31, 2024. As part of federal student aid eligibility, students and spouses (as appropriate), will be required to consent and approve sharing and importing income and tax information from the IRS to the FAFSA form, even if the attempt to obtain or use such data is ineffective. In other words, if the student and spouse filed separate 2024 IRS income tax returns, both must provide consent and approval to share and import income and tax information from the IRS. In most cases, no further documentation is needed to verify 2024 income information that was transferred into the student's FAFSA using income and tax information directly from the IRS via the FA-DDX. If 2024 income tax return information for the student (or spouse, if applicable) was not transferred via the FA-DDX and considered verified, the student and spouse should provide the institution with a 2024 IRS Tax Return Transcript(s) or a signed copy of the 2024 income tax return and applicable schedules.
