BUMP ON HEAD

- Your child bumped his/her head today.

For 24 hours following head injury check your child every hour.

Call your doctor if:

1. You notice any decrease in consciousness
(falls asleep and cannot be aroused easily)
2. Abnormal drowsiness
3. Abnormal speech or behavior
4. Convulsions
5. Oozing watery fluid or blood from nose or ears
6. Persistent headache
7. Vomiting
8. Inability to move any part of body, clumsiness
