**STA Transit Centers:** Greg Stevens reported on:

STA, following receipt of designated improvement funds for both Ft. Wright Boulevard station Improvements and the Central City Line, approached CCS in 2017 regarding expansions to SCC and SFCC campus transit locations. The expansions will enhance transportation services to our students, student safety and better serve our community’s transportation needs. Safety and security issues to be addressed with Traffic Lighting. Parking spaces lost will be moved to other locations. Signage and Wayfinding projects are under way.

STA “Upriver” Transit Center at SCC will take about the next 3-5 years. Central City line will be on mission and take up parking on building 1. STA envisions in the long term about 21 buses per hour instead of the eight currently. A new “front door” for SCC will be created. A security office will be added. Trustee Thew asked about the maintenance of this building and if the cost would be on CCS or STA? Greg Stevens informed the Trustee Thew the maintenance will be on STA.

**BACKGROUND CHECKK PRACTICE/PROCEDURES:** Greg Stevens

At the board’s July 2018 regular meeting agenda, a discussion item regarding revision to Administration Procedure 2.00.01-J, Volunteers and Interns, was under review. The current CCS practice is that every prospective volunteer and employee signs an authorization form for checking references and criminal background, post offer and pre-employment. This check is run by WSP. Trustee Thew asked what about an Idaho resident. CCS run’s background checks as well. The cost for outside the State of Washington costs anywhere from $50-$150 to run the background check. It is more cumbersome since CCS doesn’t receive them as rapidly, and the probation period is 6 months for classified employees, two years for tenure and as an exempt employee one is always on probation. Comprehensive Checks are run for specific high-risk positions as Executive positions, Positions that directly handle money and positions working with the dependent populations. For these positions the criminal conviction check could also include check in states of past and current as well as residence and specific check for drug violation convictions and sexual misconduct convictions. These higher level checks are conducted by a third party report. CCS practices are in compliance with both laws. Risk Management vs. Limitations, to make sure all employees have a current background check. Among the Board’s questions, should our processes and practices be incorporated into procedure? The answer is yes. Trustee Johnson asks a question regarding insurance, does CCS have a pool or is it we self-insured? CCS is self-insured to the state, pay into the pool. CCS does not have a reserve set up to cover CCS costs. Trustee Johnson asked if there is a pool to reduce our liability. CCS has procedures in place that meet or exceed State requirements.
