As such, institutions may have until the end of the second calendar quarter, June 30, 2021, to post these retroactive reports if they have not already done so.

6. The method(s) used by the institution to determine which students receive Emergency Financial Aid Grants and how much they would receive under Section 18004(a)(1) of the CARES Act.

SFCC directly disbursed \$350.00 of SFCC CARES Emergency Financial Aid Grant in Spring 2020 to all eligible students to help meet their expenses due to the disruption of campus operations and the move of all on-campus courses to an online modality as a result of COVID-19. SFCC determined \$350 would provide immediate support for students that incurred additional expenses due to the change to an online modality. SFCC students may apply for an additional \$1,000 in grant funds, in addition to the direct disbursement received, to meet their additional expenses due to the disruption of campus operations caused by COVID-19. The changes, limitations, and disruption of campus operations continues and will continue in the following quarters. Students continue to incur technology expenses, i.e. internet access, software, etc. and will for the following quarters. To support students with the ongoing expenses due to COVID-19 in Spring 2020, SFCC made a decision to disburse additional CARES funds not yet expended and provide an additional \$150 additional CARES emergency funds to all eligible students enrolled in the quarter, totaling \$500 in emergency aid to support each eligible student that has incurred expenses due to disruption of campus operations due to COVID-19. In Fall 2020, SFCC again disbursed \$350 to all enrolled eligible students due to the continued disruption of campus operations and related expenses, with additional funds available by application.
