NATIVE LAND ACKNOWLEDGEMENT

We are honored to acknowledge that the Community Colleges of Spokane, and our main campuses for Spokane Falls and Spokane Community College, are located on the traditional and sacred homelands of the Spokane Tribe. We also provide services in a region that includes the traditional and sacred homelands of the Coeur d'Alene Tribe, Confederated Tribes of the Colville Reservation, Kalispel Tribe and Nez Perce Tribe.

We pay our respect to tribal elders both past and present as well as to all indigenous people today. This land holds their cultural DNA and we are honored and grateful to be here on their traditional lands. We give thanks to the legacy of the original people and their descendants and pledge to honor their stewardship and values.

Community Colleges of Spokane (CCS), founded in 1963, is a dynamic community college district serving more than 25,000 students a year across 12,300 square miles in eastern Washington. CCS is comprised of Spokane Community College and Spokane Falls Community College, each accredited by the Northwest Commission on Colleges and Universities and operates education centers in many rural communities. CCS also offers a variety of programs at locations throughout our area, including adult education, parent education, workforce and continuing education; as well as parent cooperative preschools and Spokane County Head Start. Candidates participating in today's ceremony have achieved some of the following requirements.

Associate of Arts Degree

Associate of arts degree candidates must complete 90 credits in academic courses numbered 100 and above from the following categories: communications skills, quantitative skills, humanities, social sciences, mathematics/science, health-related and physical education activities, and electives. They must earn a cumulative grade point average of 2.0 or higher and at least 30 credits through Community Colleges of Spokane. The associate of arts direct transfer agreement is designed to transfer to bachelor of arts degrees at all public and many private Washington four-year institutions.

Associate in Applied Science Degree

Associate in applied science degree candidates in a career and technical area must complete a minimum of 90 credits in program requirements with a cumulative grade point average of 2.0 or higher. Many programs require more than 90 credits. Candidates must earn at least 30 credits from Community Colleges of Spokane, with the last quarter completed in residence.

Certificate in a Career and Technical Program

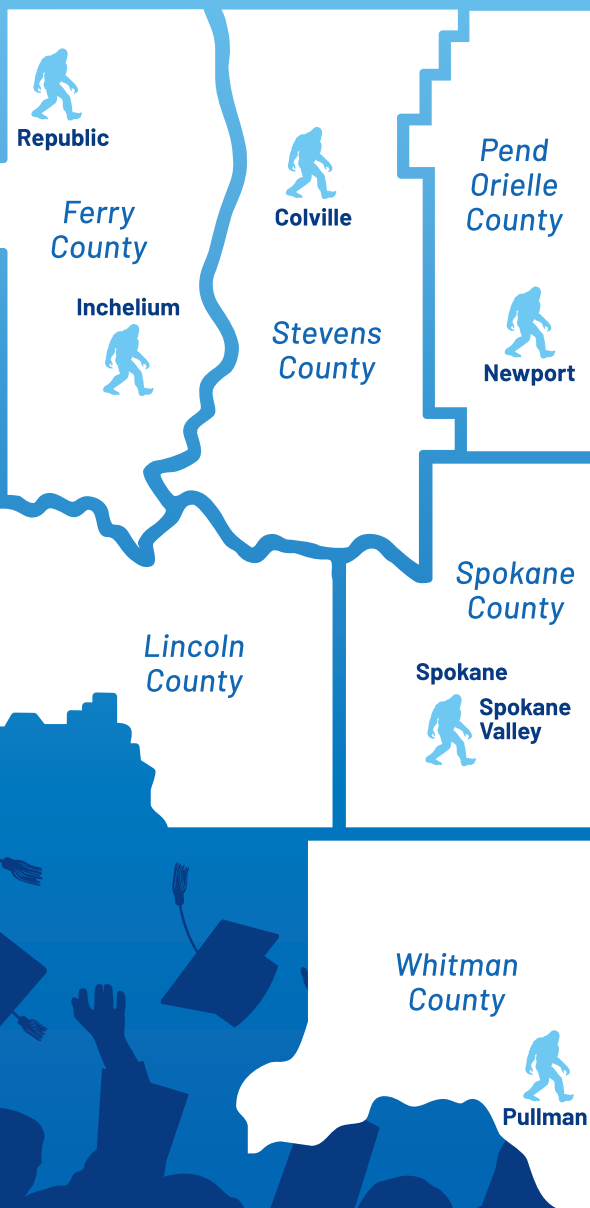

Candidates for a certificate in a career and technical program of at least three quarters in length must have earned a specified number of credits in related education: computation, communications and human relations/leadership. They must maintain a grade point average of 2.0 or higher. Candidates must earn at least 30 credits from Community Colleges of Spokane, with the last quarter completed in residence.

General Educational Development (GED) Certificate

Candidates have established passing scores for each of the GED® tests that measure achievement in reading, writing, mathematics, science and social studies — subject areas generally associated with a high school program of study.

High School Diploma

Candidates have satisfactorily completed an associate of arts degree or an associate in applied science degree and submitted a written request for a high school diploma from Community Colleges of Spokane.

Community Colleges of Spokane
