What is weighted most heavily on students’ application?

After it is determined that the application is complete and meets minimum qualifications, faculty want to be sure an applicant can make it through our rigorous academic portion of the program. The initial review of applications is looking for students who have proved themselves academically through grades and exam scores. Following that, they look for students who can succeed in the clinical environment. They look for indications of professionalism, appropriate behavior, community service and indications of a well-rounded person. During the processing phase of our recruitment; applications are evaluated and rated on the following criteria:

- Overall GPA
- Prerequisite GPA
- Letters of recommendation
- Activities and Community Service
- GRE scores (PTCAS GRE CODE 3789)
