

Geology & Earth Science (pre-major) Class Planning Schedules

The following are suggested class schedules for students pursuing either a BS in Geology or Associate in Secondary Education, Earth & Space Sciences degree. As with all degrees, the student should meet with a counselor to discuss specific requirements and transfer requirements for the various 4-year universities in the state of Washington or elsewhere. It is also recommended that the student check with the geology department at the intended transfer institution for specific requirements.

Geology – Bachelor of Science Class Schedule

Summer

Fall

Winter

Spring

	Math 91	Math 92	Math 99
	Geol 101	Hum "W"	Geol 201
	Engl 101	Engl 102/Cmst 101 choose one	Soc Sci A (Geog 260)
		Health 101/104/174 choose one	PE (2 credits)

Math 141	Math 142	Math 151	Math 152
Hum "D"	Chem 161	Chem 162	Chem 163
Soc Sci B	*Physics 101 or	*Physics 102 or	*Physics 103 or
	*Biol 222 or Physics 201	*Biol 223 or Physics 202	*Biol 221 or Physics 203

*choose one series throughout, also check with your counselor or the transfer/receiving institution geology dept.

Soc Sci B			
Math 153			
Hum			

NOTE: always check with the receiving institution in which you intend to transfer for specific requirements. If EWU, make one Soc Sci a PolSci 203, Soc 201, or Geog 230. A "W" and "D" can come from either Social Science or Humanities. Math and science sequences should be done at the same institution: If you start a series, finish it.
